TRITON MARINE AND SILVERTON YACHT & OWNERS CLUB ANNOUNCE
CONTINUED PARTNERSHIP

Melbourne, FL – (July 27, 2009) Triton Marine, a wholly owned subsidiary of Environmental Manufacturing Solutions (EMS), and Silverton have joined forces to give back to the boating community for their support of the environment.

Silverton Owners Club and the Silverton Yacht Club powered by Marina life will both receive 15% of the proceeds of their purchases of Triton products to aid in supporting their non-profit organizations. The club members who purchase Triton products also receive 15% off. That's 30% back to the boating community.

“Triton believes that boat owners not only deserve products that take care of their Silverton boat and the environment, they also deserve to be rewarded for their efforts in keeping our waters “Clean & Green”” said John MacDonald, EMS President. “This is our way to showing our appreciation for their choice to Go-Green.”

For more information about Triton products, visit www.tritonmarineproducts.com or contact tim@enviromfg.com.

About EMS

EMS is headquartered in Melbourne, Florida with offices in Salt Lake City, Utah, Norfolk, Virginia and London, England. EMS offers over 90 products that replace harsh acids, solvents, and caustics so common in the world of industrial cleaners. EMS products are distributed through authorized representatives in the U.S. and abroad. EMS formulations continue to revolutionize industries such as construction, food preparation, janitorial, maritime, aviation, waste-water treatment, oil and gas, mining, turf and agriculture among others. EMS also makes the worlds only original equipment manufacturer (OEM) approved truck washes and cleaners.
